

### PARENT ENGAGEMENT IN EDUCATION

Outcome indicator

## **Indicator Phrasing**

**English:** number or % of supported schools that have a Parent-Teacher Association (PTA) actively engaged in school affairs

**French:** nombre ou % d'écoles appuyées ayant une Association Parents-Enseignants (APE) activement engagée dans les affaires scolaires

**Portuguese:** número ou % de escolas suportadas que têm uma Associação de Pais-Professores envolvida activamente nos assuntos escolares

**Czech:** počet nebo % podpořených škol, které mají školní radu (složenou s učitelů a rodičů), jež se aktivně zapojuje do řešení záležitostí školy

## What is its purpose?

To provide quality and relevant education, the school must be aware of caregivers' concerns regarding their children's education. At the same time, important school-related issues should be shared with the community in a timely manner. Parent-teacher associations (PTAs) should facilitate this two-way communication. The indicator measures the number and proportion of supported schools that have an active and fully functional PTA.

# How to Collect and Analyse the Required Data

#### Collect the required data from the following sources:

- > interviews with the school director, teachers and/or PTA members
- > reviews of PTA documentation

#### RECOMMENDED SURVEY QUESTIONS (Q) AND POSSIBLE ANSWERS (A)

**Q1**: Does your school have a parent-teacher association?

**A1**: yes / no

**Q2**: What are the roles and responsibilities of the parent-teacher association in your school?

**A2**:

1) having regular meetings

- 2) checking students' and teachers' attendance
- 3) monitoring the state of school facilities
- 4) monitoring quality of teaching and learning
- 5) following up on cases of dropout and out-of-school children
- 6) promoting child protection and the safety of students at school and on their way to and from school
- 7) mobilising community financial and in-kind contributions
- 8) ensuring that school management is accountable

The role of PTAs is country specific and your team therefore has to **adjust the list of PTA standard responsibilities** for the given intervention area.

At the same time, your team has to **determine what roles and responsibilities must be met** in order for the PTA to be considered as "functional and active".

To **calculate the indicator's value**, divide the number of supported schools with "functional and active" PTA by the total number of assessed schools. Multiply the result by 100 to convert it to a percentage.

## **Important Comments**

1) In some countries alternative names of PTAs may include "community education committee" or "school management committee" - **always use the locally known name of PTA**.
